## The Chad Family continued

He was lightly shown and awarded Calf Champion at Biloela, the 2001 Qld Feature Show and then Junior Champion at Forbes, the 2001 NSW Feature Show. He was put into and passed quarantine for domestic and export, but unfortunately his semen wouldn't process satisfactorily. His progeny have been outstanding. He sired both the Senior (Aroura Playboy) and Reserve Senior Champion (Edengarry Chadd) Bulls at the 2005 National Braford Feature Show in Sydney. Both bulls came from the 20-24 mths class. Edengarry Chadd also won the Junior Championship at the 2005 Qld Feature Show held in Mackay. Playboy has sired a number of outstanding show cattle and sale bulls for Chadwick Downs as well as having semen exported worldwide. Edengarry Chadd is also breeding exceptionally well for the Rea Family.

Donrinda 505 Levi was a home bred son of Chucka out of a large framed Bam Bam daughter. He was a true impact sire showing very good weight for age, strong bone and body length, sire appeal, clean coat and tremendous carcass. He was awarded Calf Champion at the 2004 Qld Feature Show in Wandoan. He was genetically very strong. The last of his sons will be for sale in 2010.

In recent years, to improve the coat and skin on our cattle, we have selectively used a number of higher content bulls, being mindful not to go too high for our own climate and local markets. We now have a line of young breeders of the type and quality that we have been trying to breed.

In 2007 we purchased a number of females from Larry & Beth Acton to put on "Jabiru", and with these also came Ascot Tyson .

We were the losing bidders on Tyson when he was sold at auction and very pleased to be able to purchase him. He sired 49 calves in his first season here, not bad for an old bull dragging a leg. Just proves 'where there's a will, there's a way', nothing wrong with his leg when there's a job to be done or a fight to be had. His calves are the most consistent in type and quality, from an outside sire that we have had for many years. There will be a number of bulls by him for sale in 2010.

The current sires that we are using also include, Taroela Chief, purchased in 2008 and his first drop of calves are exciting. Very consistent, long, thick and sound. We are planning on taking a couple up to Mitchell for the Feature show in 2011.

The Chucka /Bam Bam / Levi sire line continues on through Donrinda B005 Redgum, sired by Levi, he is a big, strong bull that is producing a lot of very good calves.

Neimen Xtreme (P) was purchased in 2009 for his natural balance and exceptional carcass, sheath, soundness and clean poll. His pedigree goes back to Ascot Noah.

Also purchased in 2009 was Alberta McGrath, a large framed, heavy boned, poll bull sired by 2006 National Sale topper, Carinya Hayden (P), and a grandson of "supersire", Carinya Endeavour. McGrath is a similar bull in scale and type to Carinya Tallon and Bam Bam. We are confident he will click with our cows.

Whether you are a straight breeder or a cross breeder, if beef is your business, then BraforDs have something to offer you. ■
